Construction Scheduled for High Valley Drive Safe Sidewalk Project

Houston, TX - Houston City Council Member Dave Martin is pleased to announce Houston Public Works will be installing concrete sidewalks on High Valley Drive, between Kingwood Drive and Stately Oak Street. The installation of this sidewalk will provide increased pedestrian safety for students attending Riverwood Middle School. Council Member Martin was happy to allocate the funding in the amount of \$82,052.49 from his Council District Service Funds.

Construction is scheduled to begin on Thursday, August 8, and is expected to be completed Thursday, September 5, weather permitting. Crews will operate between the hours of 7:00 a.m. and 10:00 p.m., Monday through Friday, and weekends if necessary. Temporary lane closures and traffic delays are expected during construction hours.

As a result of the construction activities, please be aware of flaggers and caution devices, like orange traffic control barriers, that will be put in place on site to help with traffic flow through the construction zone.

For more information, please contact Council Member Dave Martin's office at (832) 393-3008 or districte@houstontx.gov.
